**ALMONTY ANNOUNCES NON-BROKERED PRIVATE PLACEMENT FINANCING
OF UP TO \$5.0 MILLION**

Toronto -March 4, 2016- Almonty Industries Inc. (“**Almonty**”) (TSXV: AII) Almonty announces that it intends to complete a non-brokered private placement of up to 20,000,000 units at a price of \$0.25 per unit for aggregate gross proceeds of \$5,000,000 (the “**Equity Offering**”). Each unit will consist of one common share and one half of a common share purchase warrant. Each whole common share purchase warrant entitles the holder to purchase one common share of Almonty for \$0.30 for a period of up to two years after closing.

Closing of the Equity Offering is subject to the receipt of all applicable regulatory approvals, including the approval of the TSX Venture Exchange, and the satisfaction of all other customary closing conditions. All securities issued pursuant to the Equity Offering will be subject to resale restrictions for a period of four months from the closing date. Almonty intends to use the net proceeds of the Equity Offering to fund ongoing engineering work at Almonty Korea Tungsten’s Sangdong project and for general corporate purposes. Closing of the equity offering is expected to occur in two tranches with the first closing anticipated to be on or about March 9, 2016.

Lewis Black, President & CEO of Almonty said, “We are conducting this raise to ensure the timeline development schedule at Almonty Korea Tungsten remains on track as we move to the final stage of arranging project financing. Our core group of existing shareholders and the industry as a whole continue to strongly support our low cost/low capex consolidation of the sector and the long term low cost viability and reliability that we bring to the western consumers of tungsten concentrate. I would like to thank in advance all those who participate in this raise for their support and commitment to the consolidation that we have now completed and for their vision of the future value of Almonty as we see tungsten prices continue to improve.”

Almonty expects certain of its directors, officers and significant shareholders to participate in the Equity Offering, which will, as a result, qualify as a related party transaction for purposes of Multilateral Instrument 61-101 – *Protection of Minority Security Holders in Special Transactions* (“**MI 61-101**”). Neither the fair market value of the securities being issued to interested parties nor the consideration being paid by interested parties will exceed 25% of Almonty’s market capitalization. Accordingly, the Equity Offering is exempt from the formal valuation and minority shareholder approval requirements of MI 61-101.

About Almonty

The principal business of Toronto, Canada-based Almonty Industries Inc. is the mining, processing and shipping of tungsten concentrate from its Los Santos Mine in western Spain, its Wolfram Camp Mine in north Queensland, Australia and its Panasqueira mine in Portugal as well as the development of the Sangdong tungsten mine in Gangwon Province, Korea and the Valtreixal tin/tungsten project in north western Spain. The Los Santos Mine was acquired by Almonty in September 2011 and is located approximately 50 kilometres from Salamanca in western Spain and produces tungsten concentrate. The Wolfram Camp Mine was acquired by Almonty in September 2014 and is located approximately 130 kilometres west of Cairns in northern Queensland, Australia and produces tungsten and molybdenum concentrate. The Panasqueira mine, which has been in production since 1896, is located approximately 260 kilometres northeast of Lisbon, Portugal, was acquired in January 2016 and produces tungsten concentrate. The Sangdong mine, which was historically one of the largest tungsten mines in the world and one of the few long-life, high-grade tungsten deposits outside of China, was acquired in September 2015 through the acquisition of a 100% interest in Woulfe Mining Corp. Almonty also has an option to acquire a 100% ownership interest in the Valtreixal tin-tungsten project in northwestern Spain.
