**ALMONTY ANNOUNCES CLOSING OF \$1.5 MILLION BROKERED PRIVATE PLACEMENT FINANCING**

**Toronto – June 3, 2016** - Almonty Industries Inc. (“Almonty”) (TSXV: All) announces that it has closed its previously announced private placement of 5,000,000 of common shares at a price of \$0.30 per common share for gross proceeds to Almonty of \$1,500,000 (the “Offering”).

The Offering was announced in conjunction with the entering into of a binding Heads of Agreement with ATC Alloys Limited (“ATC Alloys”) pursuant to which Almonty agreed to make a recommended off-market takeover offer under the Australia Corporations Act 2001 (Cth) for all of the issued, and to be issued, shares of ATC Alloys.

All securities issued pursuant to the Offering are subject to resale restrictions for a period of four months and a day until October 4, 2016 as prescribed by the TSX Venture Exchange and applicable securities laws.

Somers and Partners Pty Ltd acted as lead manager of the Offering. In aggregate, Almonty paid a commission of \$60,000 being 4% of the gross proceeds raised on the financing.

Almonty intends to use the net proceeds of the Offering to fund working capital and general corporate purposes.

Lewis Black, President & CEO of Almonty said, *“The closing of the financing is the first step towards the recently announced take-over offer in respect of ATC Alloys. We expect the transaction with ATC Alloys will, if completed, add a downstream ferrotungsten production capability to our existing portfolio of tungsten development and production assets. We anticipate that the ASX listing associated with the ATC Alloys transaction will promote enhanced trading liquidity and greater investor interest in Almonty.”*

**About Almonty**

The principal business of Almonty is the mining, processing and shipping of tungsten concentrate from its Los Santos Mine in western Spain, its Wolfram Camp Mine in north Queensland, Australia and its Panasqueira mine in Portugal as well as the development of the Sangdong tungsten mine in Gangwon Province, Korea and the Valtreixal tin/tungsten project in north western Spain. The Los Santos Mine was acquired by Almonty in September 2011 and is located approximately 50 kilometres from Salamanca in western Spain and produces tungsten concentrate. The Wolfram Camp Mine was acquired by Almonty in September 2014 and is located approximately 130 kilometres west of Cairns in northern Queensland, Australia and produces tungsten and molybdenum concentrate. The Panasqueira mine, which has been in production since 1896, is located approximately 260 kilometres northeast of Lisbon, Portugal, was acquired in January 2016 and produces tungsten concentrate. The Sangdong mine, which was historically one of the largest tungsten mines in the world and one of the few long-life, high-grade tungsten deposits outside of China, was acquired in September 2015 through the acquisition of a 100% interest in Woulfe Mining Corp. Almonty also has an option to acquire a 100% ownership interest in the Valtreixal tin-tungsten project in northwestern Spain. Further
