OR DISSEMINATION IN THE UNITED STATES**

Toronto - September 15, 2017. Further to its news release dated August 29, 2017, Almonty Industries Inc. (TSX-V:AII) ("Almonty") announces that it has completed the transaction with Deutsche Rohstoff AG ("DRAG") whereby DRAG converted its secured convertible debenture of Almonty in the principal amount of CAD\$4,000,000 (the "Debenture") into 6,646,667 common shares of Almonty at a deemed price of \$0.60 per share (the "Conversion"). In addition, under the Conversion, Almonty also issued 1,083,167 common shares at a deemed price of \$0.3015 to DRAG in satisfaction of \$326,575 of accrued and unpaid interest owed to DRAG under the Debenture. The shares issued to DRAG are subject to a regulatory hold period ending on January 15, 2018.

**DRAG Early Warning Disclosure**

Under the Conversion, DRAG has acquired beneficial ownership of, and control and direction over, 7,729,834 Common Shares, representing approximately 4.6% of the issued and outstanding Common Shares.

Prior to the Conversion, DRAG owned and controlled: (i) the Debenture; (ii) 15,253,790 Common Shares, representing approximately 9.4% of the issued and outstanding Common Shares; and (iii) an unsecured convertible debenture of Almonty in the principal amount of \$6,000,000 (the "Unsecured Debenture"), maturing in March 2019, bearing interest at a rate of 4% per annum and being convertible into Common Shares at the option of DRAG at a conversion price of \$1.45 per share.

As a result of its acquisition of the Common Shares under the Conversion, immediately after the Conversion, DRAG owns and controls (i) 22,983,624 Common Shares, representing approximately 13.6% of the issued and outstanding Common Shares; and (ii) the Unsecured Debenture.

In the event that the principal amount of the Unsecured Debenture was converted, DRAG would have ownership and control of an additional 4,137,931 Common Shares, representing approximately 2.4% of the then issued and outstanding Common Shares, and ownership and control over a total of 27,121,555 Common Shares, representing approximately 15.6% of the then issued and outstanding Common Shares post-conversion.

DRAG acquired the Common Shares for investment purposes and has no present intention to acquire further securities of Almonty except as described below, although it may in the future acquire or dispose of securities of Almonty, through the market, privately or otherwise, as circumstances or market conditions warrant. In connection with the conversion of the Debenture, DRAG has agreed with Almonty to purchase US\$250,000 of Common Shares on or before December 31, 2017 on the stock exchange on which the Common Shares are then listed or in one or more off-market transactions or in a capital increase, subject to an extension of this period by six months from Almonty (such request not to be unreasonably denied) if it is unreasonable to purchase shares, for example, but not exclusively, if the share

price is trading above \$0.60 per Common Share, not enough Common Shares are offered or DRAG is not allowed to buy Common Shares due to insider trading laws for an extended period.

A copy of the early warning report required to be filed by DRAG with applicable securities commissions in connection with this acquisition will be available for viewing under Almonty's profile on SEDAR at [www.sedar.com](http://www.sedar.com) and a copy of the early warning report may also be obtained by contacting Thomas Gutschlag, the Chief Executive Officer of DRAG, at Q7, 24, Mannheim, Germany, 68161, Telephone +49 621 490 871 0.

## **About Almonty**

The principal business of Toronto, Canada-based Almonty Industries Inc. is the mining, processing and shipping of tungsten concentrate from its Los Santos Mine in western Spain and its Panasqueira mine in Portugal as well as the refurbishment of its Wolfram Camp Mine in north Queensland, Australia, the development of its Sangdong tungsten mine in Gangwon Province, South Korea and the development Valtreixal tin/tungsten project in north western Spain. The Los Santos Mine was acquired by Almonty in September 2011 and is located approximately 50 kilometres from Salamanca in western Spain and produces tungsten concentrate. The Wolfram Camp Mine was acquired by Almonty in September 2014 and is located approximately 130 kilometres west of Cairns in northern Queensland, Australia and has produced tungsten and molybdenum concentrate, although the Wolfram Camp Mine is not currently producing due to ongoing refurbishment of the processing plant. The Panasqueira mine, which has been in production since 1896, is located approximately 260 kilometres northeast of Lisbon, Portugal, was acquired in January 2016 and produces tungsten concentrate. The Sangdong mine, which was historically one of the largest tungsten mines in the world and one of the few long-life, high-grade tungsten deposits outside of China, was acquired in September 2015 through the acquisition of a 100% interest in Woulfe Mining Corp. Almonty owns 100% of the Valtreixal tin-tungsten project in north-western Spain.
