

Almonty Announces Execution of Memorandum of Understanding with Provincial and County Governments for Collaboration and Support for Sangdong Mine Development Project

TORONTO--(BUSINESS WIRE)—May 11, 2020—Almonty Industries Inc. (TSX:AII) (“Almonty”) announces the execution of a Memorandum of Understanding (“MOU”) amongst Gangwon Provincial Government, Yeongwol County Government and Almonty Korea Tungsten (“AKT”), Almonty’s wholly-owned subsidiary in South Korea, on the 7th of May, 2020.

The MOU was signed in the Office of the Gangwon Provincial Government by Governor Moon-Soon Choi, Mayor Myeong-Seo Choi of Yeongwol County, Mr. Tiger Kim, Almonty’s Korea Representative, and Mr. Lewis Black, President & CEO of AKT who joined the ceremony via video conferencing due to travel restrictions set by COVID-19.

The MOU stipulates that, in recognition of the importance of tungsten and the development of the Sangdong Mine to the national economy and competitiveness, both municipal governments shall cooperate as much as possible for administrative and financial support including the granting of permits, and the provision of certain subsidies and tax exemptions. It also states that the municipal governments shall fully cooperate and support in providing required infrastructure for the successful development of the Sangdong Mine.

In the press conference that followed, the Governor and the Mayor disclosed the plan to reinforce the Provincial and County Decrees to include the development of tungsten, one of the ‘5 Critical Materials’ designated by the Korean government, as the strategic area of thrust for the Province, together with rare earth elements, which will materialize the long-cherished plan for developing the Province as the hub of strategic minerals taking advantage of its mineral richness and geographical proximity to North Korea.

Almonty’s Chairman, President and CEO Lewis Black said:

“We recognize the execution of this MOU as a meaningful event in the development of the Sangdong tungsten mine. In addition to the administrative support provided by both municipal governments to date, this MOU will surely provide the momentum to the facilitation of the ongoing process of the US\$76 million KfW IPEX-Bank project loan closure.

The designation of tungsten as one of ‘5 Critical Materials’ of the nation, and the declaration of the Sangdong project as one of the backbones of the strategic mineral hub, signify how importantly the governments of Korea view the Sangdong Mine project.

As stated in the MOU signing ceremony to His Excellency Governor Choi, Mayor Choi and the press, it is our duty and obligation to return the overwhelming support of the municipal governments and the community through the successful completion of the Sangdong project, making it the representative mine of Korea in every aspect. Particularly, we will do our best to

complete the mission given to us by the Governor and the Mayor to develop Sangdong as a center of Korea's global competitiveness in the era of intensifying resource war.”

About Almonty

The principal business of Toronto, Canada-based Almonty Industries Inc. is the mining, processing and shipping of tungsten concentrate from its Los Santos mine in western Spain and its Panasqueira mine in Portugal as well as the development of its Sangdong tungsten mine in Gangwon Province, South Korea and the development of the Valtreixal tin/tungsten project in north western Spain. The Los Santos mine was acquired by Almonty in September 2011 and is located approximately 50 kilometres from Salamanca in western Spain and produces tungsten concentrate. The Panasqueira mine, which has been in production since 1896, located approximately 260 kilometres northeast of Lisbon, Portugal, was acquired in January 2016 and produces tungsten concentrate. The Sangdong mine, which was historically one of the largest tungsten mines in the world and one of the few long-life, high-grade tungsten deposits outside of China, was acquired in September 2015 through the acquisition of a 100% interest in Woulfe Mining Corp. Almonty owns 100% of the Valtreixal tin-tungsten project in north-western Spain.
